Contech Conservatory Roof Manufacturers Limited
Unit 38 Parkhall Business Village, Parkhall Road,
Longton, Stoke-on-Trent, Staffs. ST3 5XA
T. 01782 593968 | F. 01782 331260 | E. sales@contechconservatories.co.uk

The guidelines for designing Stratus Lantern Roofs are as follows: -

1. Fixed 20° pitch
2. No jack rafters
3. 24mm glazing only
4. Minimum ridge length of 140mm
5. Maximum rafter spacing is 1500mm based on E.T.U size, with 31mm clearance required where glazing bar meets radius end
6. External caps are aluminium, internal PVC-u. Stock colours are white and anthracite grey. We can powder coat to any RAL, please ask for further information
7. Sizes relate to **external** face of timber upstand (E.T.U)
8. For optimum looks : -

Width x 1.5/2/2.5 Length etc

Example 1400 (w) x 2100 (l)

PLEASE GIVE EXTERNAL TIMBER UPSTAND MEASUREMENTS

The required timber upstand size is **100mm x 150mm**

You must advise us if different, please call to check ETU sizes before creating the opening, to make sure the lantern will look aesthetically pleasing.
